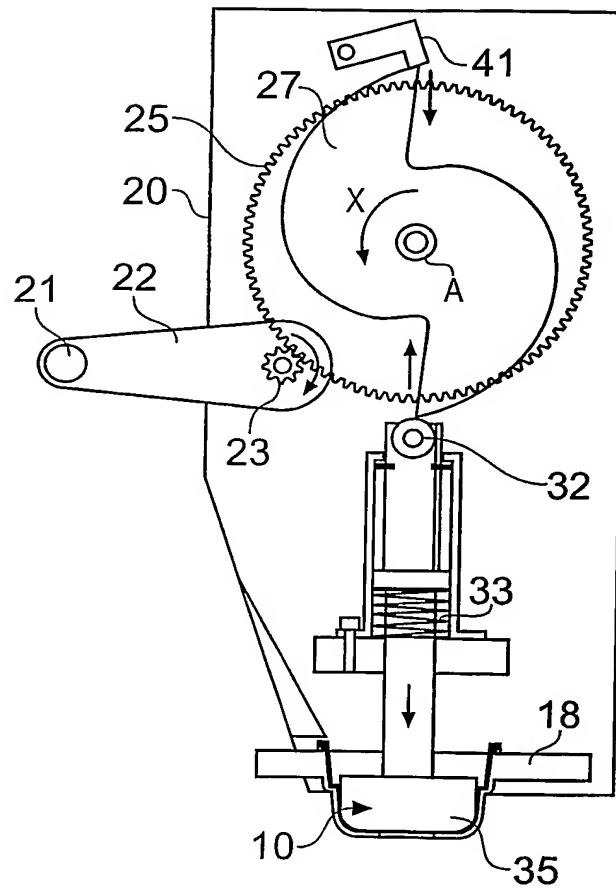

Fig. 3

This cross-sectional view shows a mechanical assembly. At the top, a vertical shaft (31) passes through a housing (20). Inside the housing, a spring (33) is mounted between a top plate (39) and a lower plate (38). The spring is coiled around a central shaft. Below the housing, a large, rounded component (13) is shown, which is part of a larger assembly (10). This component is surrounded by a housing (14) and is connected to a base (16) via a flange (17). The base is supported by a foundation (18). The entire assembly is shown in a cross-sectional view, with various components labeled with reference numerals.
